PANEL WARRANTY

ALLBONDS[™] warrants to the Customer/Property Owner that the aluminum composite panels as supplied are free from any defects which would cause the panels to delaminate within a twenty (20) year period from the time of shipment.

ALLBONDS[™] agrees to repair or replace, at its sole cost and option, any aluminum composite panels that experience delamination during the warranty period as a result of any material and/or manufacturing defects.

COATING WARRANTY

ALLBONDS™ warrants to the Customer/Property Owner that the architectural coating applied to the aluminum composite material will not deteriorate and/or fail as a direct result of manufacturing defects for a period of up to twenty (20) years from the time of shipment. Thirty years warranty is also available.

Coating deterioration/failure is defined as follows:

Peeling, checking, or cracking (except for slight crazing or cracking as may occur on normal roll-forming or brake bending which is accepted in the industry as standard); Chalk in excess of a numerical rating of 6 as measured in accordance with standard procedures as specified in ASTM D-4214 (Method D-659); Fade or a color change in excess of 5 color difference units when measured according to ASTM D-2244 on exposed paint surfaces which have been cleaned of external deposits and chalk.

This coating warranty will not cover the following:

- Corrosive and/or aggressive atmospheric conditions such as chemical fumes, salt, or other corrosive elements
- Damage to the coating as a result of moisture and/or other contamination due to improper storage during shipment, during fabrication, or at the job site prior to installation
- Damage to the coating caused by improper handling, shipping, processing, or installation and other non-manufacturing occurrences
- Damage to the coating as a result of ponding or standing water
- Unreasonable use, misuse, abuse, negligence, vandalism, or accidental damage, or acts of God such as fires, floods, earthquakes, lightning, et al.
- Panels that are modified or altered in a manner not authorized by ALLBONDS™ in writing
- Labor charges for dismantling or reinstalling a repaired or replaced panel

It is recognized that fading or color change may not be uniform if the coated surfaces are not equally exposed to the sun and the elements, and therefore non-uniform fading in this situation is excluded from the warranty.
